

I am writing in reference to the possible replacement of my station K-Love with an LPFM. K-Love is such a positive, thought provoking, encouraging and uplifting station to receive at home and in my car that I can not imagine my life without it. My children listen to it as well and enjoy hearing great Christian music. Having K-Love available to us in the San Antonio area is vital because it provides what no other station does - Christian based music, thoughts, prayer lines and information on local gatherings. If this were replaced by a LPFM broadcaster, we would have nothing that is ALWAYS positive to listen to. I'm tired of listening to so many commercials AND music that I don't feel my kids should be subjected to. It's nice to have a station that I don't ever have to worry if something "marginal" will come on. Thank you!
